NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

(1) Organization

Mediacom Communications Corporation ("MCC," and collectively with its direct and indirect subsidiaries, the "Company") is involved in the acquisition and development of cable television systems serving smaller cities and towns in the United States. Through these cable systems, the Company offers a wide array of broadband products and services to its customers, including traditional video services, digital television, high-speed Internet access and video-on-demand. As of September 30, 2002, the Company had acquired and was operating cable systems in 23 states, principally Alabama, California, Delaware, Florida, Georgia, Illinois, Indiana, Iowa, Kentucky, Minnesota, Missouri, North Carolina and South Dakota.

MCC, a Delaware corporation organized in November 1999, completed an initial public offering on February 9, 2000. Prior to the initial public offering, MCC had no assets, liabilities, contingent liabilities or operations. Immediately prior to the completion of its initial public offering, MCC issued shares of its Class A and Class B common stock in exchange for all of the outstanding membership interests in Mediacom LLC, a New York limited liability company organized in July 1995. As a result of this exchange, Mediacom LLC became a wholly-owned subsidiary of MCC.

Mediacom Broadband LLC, a wholly-owned subsidiary of MCC, was organized as a Delaware limited liability company in April 2001 for the purpose of acquiring cable television systems from AT&T Broadband, LLC ("AT&T Broadband") in the states of Georgia, Illinois, Iowa and Missouri (the "AT&T cable systems"). The Company completed the acquisitions of the AT&T cable systems in June and July 2001.

2) Statement of Accounting Presentation and Other Information

Basis of Preparation of Consolidated Financial Statements

The consolidated financial statements as of September 30, 2002 and 2001 are unaudited. However, in the opinion of management, such statements include all adjustments, including normal recurring accruals and adjustments, necessary for a fair presentation of the results for the periods presented. The accounting policies followed during such interim periods reported are in conformity with generally accepted accounting principles in the United States of America and are consistent with those applied during annual periods. For additional disclosures, including a summary of the Company's accounting policies, the interim financial statements should be read in conjunction with the Company's Annual Report on Form 10-K for the year ended December 31, 2001 (File No. 0-29227). The results of operations for the interim periods are not necessarily indicative of the results that might be expected for future interim periods or for the full year ending December 31, 2002. In accordance with EITF No. 01-09, the Company has revised its classification of distribution fees, received in exchange for carriage of programming services, from revenues to an offset to service costs in its consolidated statements of operations and comprehensive loss. As a result, the Company has reclassified 2001 amounts to conform with the 2002 presentation.

Cumulative Effect of Accounting Change

Effective January 1, 2001, the Company adopted Statement of Financial Accounting Standards No. 133 ("SFAS 133"), "Accounting for Derivative Instruments and Hedging Activities." As a result, the Company recorded an after tax charge of approximately \$1.6 million, as a change in accounting principle, in the first quarter of 2001.

Reclassifications

Certain reclassifications have been made to prior year's amounts to conform to the current year's presentation.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

Recent Accounting Pronouncements

Effective January 1, 2002, the Company adopted, Statement of Financial Accounting Standards No. 141 ("SFAS 141") "Business Combinations" and No. 142 ("SFAS 142") "Goodwill and Other Intangible Assets". SFAS 141 requires all business combinations initiated after June 30, 2001 to be accounted for using the purchase method. Adoption of SFAS 141 had no effect on the Company's results of operations or financial position as the Company accounts for all acquisitions under the purchase method. The provisions of SFAS 142 prohibit the amortization of goodwill and indefinite-lived intangible assets and require such assets to be tested annually for impairment, or more frequently if impairment indicators arise. The Company has determined that its cable franchise costs are indefinite-lived assets. The impact of adopting SFAS 142 was to reduce amortization expense by \$36.2 million and \$108.5 million for the three and nine months ended September 30, 2002, respectively.

The following table provides a reconciliation of the pro forma results of operations for the three and nine months ended September 30, 2001 to the pro forma net loss that would have been reported had SFAS No. 142 been applied as of January 1, 2001, assuming the purchase of the AT&T cable systems had been consummated as of January 1, 2001:

	 Three Months Ended September 30, 2001	_	Vine Months Ended eptember 30, 2001		
		(dollars in thousands, except per share data)			
Pro forma net loss (See note 3.)	\$ (68,638)	\$	(184,237)		
Add back: franchise cost amortization	32,489		97,467		
Add back: goodwill amortization	3,678		11,034		
Adjusted pro forma net loss	\$ (32,471)	\$	(75,736)		
Pro forma basic and diluted loss per share (See note 3.)	\$ (0.57)		(1.82)		
Add back: franchise cost amortization	.27		.96		
Add back: goodwill amortization	.03		.11		
Adjusted pro forma basic and diluted loss per share	\$ (0.27)	\$	(0.75)		

As of September 30, 2002, intangible assets subject to amortization consisted of subscriber lists and covenants not to compete, which are being amortized over three to ten years. As of September 30, 2002, these amortizable intangible assets had a gross value of \$173.4 million, with accumulated amortization of \$123.0 million. The Company's estimated aggregate amortization expense for the fourth quarter of 2002 through 2006 and beyond is \$7.4 million, \$23.2 million, \$2.6 million, \$2.6 million and \$14.6 million, respectively.

In July 2001, the FASB issued Statement of Financial Accounting Standards No. 143 ("SFAS 143"), "Accounting for Asset Retirement Obligations," which addresses financial accounting and reporting for obligations associated with the retirement of tangible long-lived assets and the associated asset retirement costs. SFAS 143 will become effective for fiscal years beginning after June 15, 2002. The Company does not expect that adoption of SFAS 143 will have a material impact on its results of operations or financial position.

In August 2001, the FASB issued Statement of Financial Accounting Standards No. 144 ("SFAS 144") "Accounting for the Impairment or Disposal of Long-Lived Assets," which addresses financial accounting and reporting for the impairment or disposal of long-lived assets and provides guidance on classification and accounting for such assets when held for sale or abandonment. The Company adopted this standard effective January 1, 2002 and there was no impact on its results of operations or financial position.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

(3) Acquisitions

The Company made acquisitions of cable systems in 2002 and 2001 to increase the number of customers and markets it serves. These acquisitions were accounted for using the purchase method of accounting, and accordingly, the purchase price of the acquired systems has been allocated to the assets acquired and liabilities assumed at their estimated fair values at their respective dates of acquisition. The results of operations of the acquired systems have been included with those of the Company since the dates of acquisition.

2002

During the three months ended March 31, 2002, the Company acquired cable systems serving approximately 3,000 basic subscribers for an aggregate purchase price of approximately \$6.5 million. The purchase price has been preliminarily allocated to intangible assets. The cable systems serve communities contiguous with the Company's existing operations. These acquisitions were financed with borrowings under the Company's bank credit facilities.

2001

On June 29, 2001, the Company acquired cable systems serving approximately 94,000 basic subscribers in the state of Missouri from affiliates of AT&T Broadband, for a purchase price of approximately \$300.0 million. This acquisition was financed with a portion of the net proceeds from the Company's public offering of 29.9 million shares of its Class A common stock.

On July 18, 2001, the Company acquired cable systems serving approximately 706,000 basic subscribers in the states of Georgia, Illinois and Iowa from affiliates of AT&T Broadband, for an aggregate purchase price of approximately \$1.76 billion. This acquisition was financed with a portion of the net proceeds from the Company's public offerings of 29.9 million shares of its Class A common stock and its 5¼% convertible senior notes due 2006, the net proceeds of its 11% senior notes due 2013 and borrowings under the Company's bank credit facilities.

The opening balance sheet for the cable systems acquired in 2001 was (dollars in thousands):

Accounts receivable	\$ 7,744
Property, plant and equipment	579,185
Intangible assets	1,477,406
Accrued expenses	(6,256)
Total	\$ 2,058,079

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

Summarized below are the pro forma unaudited results of operations for the three and nine months ended September 30, 2001, assuming the purchase of the AT&T cable systems had been consummated as of January 1, 2001. Adjustments have been made to depreciation and amortization, reflecting the fair value of the assets acquired, and to interest expense reflecting the debt incurred to finance the acquisitions. The pro forma results may not be indicative of the results that would have occurred if the acquisitions had been completed at the beginning of the period presented or which may be obtained in the future:

(4) Loss Per Share

The Company calculates loss per share in accordance with Statement of Financial of Accounting Standards No. 128 ("SFAS 128"), "Earnings per Share." Since the Company has reported a net loss for the periods, the effects of the inclusion of stock options and convertible debt would be anti-dilutive and therefore, in accordance with SFAS 128, are not included in the computation of diluted loss per share.

(5) Debt

As of September 30, 2002 and December 31, 2001, debt consisted of:

	Sep	tember 30, 2002		ember 31, 2001
		(dollars in thousands)		
Bank credit facilities	\$	1,558,500	\$	1,400,500

51/4% convertible senior notes		172,500		172,500
	\$	2,956,000	\$	2,798,000

The average interest rate on outstanding debt under the bank credit facilities was 3.6% for the three months ended September 30, 2002, before giving effect to the interest rate exchange agreements discussed below. As of September 30, 2002, the Company had unused credit commitments of approximately \$922.9 million under its bank credit facilities, of which about \$763.2 million could be borrowed and used for general corporate purposes under the most restrictive covenants in the Company's debt arrangements. The Company was in compliance with all debt covenants as of September 30, 2002.

The Company uses interest rate exchange agreements to fix the interest rate on its floating rate debt. As of September 30, 2002, the Company had entered into interest rate exchange agreements with various banks pursuant to which the interest rate on \$520.0 million of the floating rate debt outstanding under its bank credit facilities was fixed at a weighted average rate of approximately 4.7%, plus the average applicable margin over the eurodollar rate option under such credit facilities. Under the terms of the interest rate exchange agreements, which expire from 2002 through

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

2007, the Company is exposed to credit loss in the event of nonperformance by the other parties. However, the Company does not anticipate their nonperformance.

The fair value of the interest rate exchange agreements is the estimated amount that the Company would receive or pay to terminate such agreements, taking into account current interest rates and the current creditworthiness of the Company's counterparties. At September 30, 2002, the Company would have paid approximately \$21.0 million if these agreements were terminated, inclusive of accrued interest.

(6) SoftNet

As of the date of filing this report, approximately \$43.4 million of the original \$50.0 million authorization remains available under the Class A stock repurchase program.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read in conjunction with the Company's consolidated financial statements as of and for the three and nine months ended September 30, 2002 and 2001 and with the Company's annual report on Form 10-K for the year ended December 31, 2001.

Organization

Mediacom Communications Corporation ("MCC") was organized as a Delaware corporation in November 1999 and completed an initial public offering in February 2000. Immediately prior to the completion of its initial public offering, MCC issued shares of common stock in exchange for all of the outstanding membership interests in Mediacom LLC, a New York limited liability company, upon which Mediacom LLC became MCC's wholly-owned subsidiary. Mediacom LLC commenced operations in March 1996.

Mediacom Broadband LLC, a wholly-owned subsidiary of MCC, was organized as a Delaware limited liability company in April 2001 for the purpose of acquiring cable systems from AT&T Broadband, LLC. Mediacom Broadband LLC's operating subsidiaries completed the acquisitions of the AT&T cable systems in June and July 2001.

Acquisitions

The Company has significantly expanded its business through acquisitions. All acquisitions have been accounted for under the purchase method of accounting and, therefore, the Company's historical results of operations include the results of operations for each acquired system subsequent to its respective acquisition date. These acquisitions affect the comparability of the Company's historical results of operations.

2002 Acquisitions

During the three months ended March 31, 2002, the Company acquired cable systems serving approximately 3,000 basic subscribers for an aggregate purchase price of approximately \$6.5 million. These acquisitions were financed with borrowings under the Company's bank credit facilities. The cable systems serve communities contiguous with the Company's existing operations.

2001 Acquisitions

On June 29, 2001, the Company completed the acquisition of AT&T cable systems serving approximately 94,000 basic subscribers in the state of Missouri. The purchase price for these cable systems was approximately \$300.0 million.

On July 18, 2001, the Company completed the acquisitions of AT&T cable systems serving approximately 706,000 basic subscribers in the states of Georgia, Illinois and Iowa. The aggregate purchase price for these cable systems was approximately \$1.76 billion.

General

The Company has generated significant increases in revenues principally as a result of its acquisition activities and increases in monthly revenues per basic subscriber. Approximately 88.7% of the Company's revenues for the nine months ended September 30, 2002 are attributable to video revenues from monthly subscription fees charged to customers for the Company's core cable television services, including basic, expanded basic and premium programming, digital cable television programming services, wire maintenance, equipment rental, services to commercial establishments, pay-per-view charges, installation and reconnection fees, late payment fees, and other ancillary revenues. Data revenues from cable modem service and advertising revenues represent 7.2% and 4.1% of the Company's revenues, respectively. Franchise fees charged to customers are included in their corresponding revenue category.

The Company's operating expenses consist of service costs and selling, general and administrative expenses directly attributable to its cable systems. Service costs include fees paid to programming suppliers, expenses related to copyright fees, wages and salaries of technical personnel, high-speed Internet access costs and plant operating costs. Programming costs have historically increased at rates in excess of inflation primarily due to the introduction of new programming services to the Company's basic subscribers and to increases in the rates charged for existing programming services. Under the Federal Communication Commission's existing cable rate regulations, the Company is allowed to increase its rates for cable television services to more than cover any increases in the programming and copyright costs. However, competitive conditions or other factors in the marketplace may limit the Company's ability to increase its rates. Selling, general and administrative expenses include wages and salaries for customer service and administrative personnel, franchise fees and expenses related to billing, marketing, bad debt, advertising and office administration. Corporate expenses reflect compensation of corporate employees and other corporate overhead.

The high level of depreciation and amortization associated with the Company's acquisition activities and capital investment program, as well as the interest expense related to the Company's financing activities, have caused the Company to report net losses in its limited operating history. The Company believes that such net losses are common for cable television companies and anticipates that it will continue to incur net losses for the foreseeable future.

Operating cash flow represents operating income (loss) before depreciation and amortization and non-cash stock charges relating to corporate expenses. Operating cash flow:

- is not intended to be a performance measure that should be regarded as an alternative either to operating income (loss) or net income (loss) as an indicator of operating performance, or to the statement of cash flows as a measure of liquidity;
- · is not intended to represent funds available for debt service, dividends, reinvestment or other discretionary uses; and
- should not be considered in isolation or as a substitute for measures of performance prepared in accordance with generally accepted accounting principles.

Operating cash flow is included herein because the Company's management believes that operating cash flow is a meaningful measure of performance as it is commonly used by the cable television industry and by the investment community to analyze and compare cable television companies. The Company's definition of operating cash flow may not be identical to similarly titled measures reported by other companies.

Critical Accounting Policies

The following represents the Company's critical accounting policies which reflect significant judgments and uncertainties and could possibly result in materially different results under different conditions or assumptions.

Property, Plant and Equipment

In accordance with Statement of Financial Accounting Standards No. 51, "Financial Reporting by Cable Television Companies," the Company capitalizes a portion of direct and indirect costs related to the construction, replacement and installation of property, plant and equipment. Capitalized costs are recorded as additions to property, plant and equipment and depreciated over the life of the related assets. The Company performs periodic evaluations of the estimates used to determine the amount of costs that are capitalized.

Impairment of Long-Lived Assets

The Company follows the provisions of Statement of Financial Accounting Standards No. 121 ("SFAS 121"), "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed of," which requires that long-lived assets and certain identifiable intangibles to be held and used by any entity be reviewed for impairment at each year end and whenever events or changes in circumstances indicate the carrying amount of an asset may not be recoverable. Based on the Company's review, there has been no impairment of long-lived assets under SFAS 121.

Goodwill and Other Intangible Assets

Effective January 1, 2002, the Company adopted Statement of Financial Accounting Standards No. 142 ("SFAS 142"), "Goodwill and Other Intangible Assets." The provisions of SFAS 142 prohibit the amortization of goodwill and indefinite-lived intangible assets and require such assets to be tested annually for impairment, or more frequently if impairment indicators arise. The Company has determined that its cable franchise costs are indefinite-lived assets. The impact of adopting SFAS 142 was to reduce amortization expense by \$36.2 million and \$108.5 million for the three and nine months ended September 30, 2002, respectively.

Actual Results of Operations

The following historical information includes the results of operations of the AT&T cable systems, acquired in June and July 2001, only for that portion of the respective period that such cable television systems were owned by the Company.

Basic subscribers were 1,588,000 at September 30, 2002, as compared to 1,585,000 at September 30, 2001. The Company acquired 3,000 basic subscribers during the first quarter of 2002.

Digital customers were 348,000 at September 30, 2002, as compared to 298,000 at September 30, 2001.

Data customers were 167,000 at September 30, 2002, as compared to 98,000 at September 30, 2001.

Three Months Ended September 30, 2002 Compared to Three Months Ended September 30, 2001

Revenues. Revenues increased by 21.9% to \$233.7 million for the three months ended September 30, 2002, as compared to \$191.7 million for the three months ended September 30, 2001. Of the revenue increase of \$42.0 million, \$19.2 million was attributable to the acquisitions of the AT&T cable systems. Revenues by service offering were as follows (dollars in millions):

Video revenues increased by 17.2% to \$205.0 million for the three months ended September 30, 2002, as compared to \$174.9 million for the three months ended September 30, 2001. Of the video revenue increase of \$30.1 million, \$16.5 million was attributable to the acquisitions of the AT&T cable systems. Excluding the effects of such acquisitions, video revenues increased primarily due to basic rate increases largely associated with new programming introductions and to customer growth in the Company's digital cable services.

Data revenues increased by 91.9% to \$19.0 million for the three months ended September 30, 2002, as compared to \$9.9 million for the three months ended September 30, 2001. Of the data revenue increase of \$9.1 million, \$1.4 million was attributable to the acquisitions of the AT&T cable systems. Excluding the effects of such acquisitions, data revenues increased primarily due to customer growth in the Company's high-speed Internet access service.

Advertising revenues increased by 40.6% to \$9.7 million for the three months ended September 30, 2002, as compared to \$6.9 million for the three months ended September 30, 2001. Of the advertising revenue increase of \$2.8 million, \$1.4 million was attributable to the acquisitions of the AT&T cable systems. Excluding the effects of such acquisitions, advertising revenues increased primarily due to a general improvement in local and national advertising markets.

Service costs. Service costs increased 21.5% to \$88.3 million for the three months ended September 30, 2002, as compared to \$72.7 million for the three months ended September 30, 2001. Of the service costs increase of \$15.6 million, \$7.4 million was attributable to the acquisitions of the AT&T cable systems. Excluding the effects of such acquisitions, service costs increased primarily due to higher programming expenses, including rate increases by programming suppliers for existing services and the costs of new channel additions, and greater technical employee support and other operating costs directly related to customer growth in the Company's high-speed Internet access services. As a percentage of revenues, service costs were 37.8% for the three months ended September 30, 2002, as compared with 37.9% for the three months ended September 30, 2001.

Selling, general and administrative expenses. Selling, general and administrative expenses increased 26.3% to \$44.7 million for the three months ended September 30, 2002, as compared to \$35.4 million for the three months ended September 30, 2001. Of the selling, general and administrative expense increase of \$9.3 million, \$7.0 million was attributable to the acquisitions of the AT&T cable systems. Excluding the effects of such acquisitions, selling, general and administrative expenses increased primarily as a result of higher marketing expenses related to the Company's digital and high-speed Internet services, greater employee and telecommunication costs associated with the Company's customer call centers, and higher bad debt expense. As a percentage of revenues, selling, general and administrative expenses were 19.1% for the three months ended September 30, 2002 as compared with 18.5% for the three months ended September 30, 2001.

Corporate expenses. Corporate expenses increased 27.7% to \$3.2 million for the three months ended September 30, 2002, as compared to \$2.5 million for the three months ended September 30, 2001. This was principally due to an increase in corporate employees and their related costs. As a percentage of revenues, corporate expenses were 1.4% for the three months ended September 30, 2002 as compared with 1.3% for the three months ended September 30, 2001.

Depreciation and amortization. Depreciation and amortization decreased 15.6% to \$75.5 million for the three months ended September 30, 2002, as compared to \$89.5 million for the three months ended September 30, 2001. This decrease reflected the adoption of SFAS 142, effective January 1, 2002, which eliminates the amortization of goodwill and indefinite-lived intangible assets. The adoption of SFAS 142 reduced amortization expense by \$36.2 million during the three months ended September 30, 2002, partially offset by depreciation expense associated with the Company's acquisitions of the AT&T cable systems and ongoing investments in its cable systems.

Non-cash stock charges relating to corporate expenses. Non-cash stock charges relating to corporate expenses decreased 25.1% to \$0.4 million for the three months ended September 30, 2002, as compared to \$0.5 million for the three months ended September 30, 2001. This charge represents vesting in equity interests granted to certain members of MCC's management team in 1999.

Interest expense, *net*. Interest expense, net, decreased 3.0% to \$47.0 million for the three months ended September 30, 2002 as compared to \$48.4 million for the three months ended September 30, 2001. This was due to lower interest rates on the Company's variable rate debt, partially offset by an increase in average debt outstanding.

Loss on derivative instruments, net. Loss on derivative instruments, net, was \$11.8 million for the three months ended September 30, 2002, as compared to \$7.6 million for the three months ended September 30, 2001 primarily due to an increase in the notional amount of interest rate swaps under which the Company pays fixed interest rates, and a decline in market interest rates.

Other expenses (income). Other expenses were \$2.7 million for the three months ended September 30, 2002, as compared to \$0.3 million for the three months ended September 30, 2001. This was due primarily to the inclusion of amortization of deferred financing costs as other expense for the three month period in 2002.

Net loss. Due to the factors described above, the Company generated a net loss of \$39.9 million for the three months ended September 30, 2002 as compared to a net loss of \$65.3 million for the three months ended September 30, 2001.

Operating cash flow. Operating cash flow increased 20.1% to \$97.5 million for the three months ended September 30, 2002, as compared to \$81.2 million for the three months ended September 30, 2001. Of the operating cash flow increase of \$16.3 million, \$2.0 million was attributable to the acquisitions of the AT&T cable systems. Excluding the effects of such acquisitions, operating cash flow increased primarily due to basic rate increases in the Company's video services and customer growth in the Company's digital cable and high-speed Internet access services, partially offset by increases in programming and selling, general and administrative expenses. As a percentage of revenues, operating cash flow was 41.7% for the three months ended September 30, 2002 as compared with 42.3% for the three months ended September 30, 2001.

Revenues. Revenues increased by 83.5% to \$684.1 million for the nine months ended September 30, 2002, as compared to \$372.7 million for the nine months ended September 30, 2001. Of the revenue increase of \$311.4 million, \$249.2 million was attributable to the acquisitions of the AT&T cable systems. Revenues by service offering were as follows (dollars in millions):

Video revenues increased by 73.4% to \$606.9 million for the nine months ended September 30, 2002, as compared to \$349.9 million for the nine months ended September 30, 2001. Of the video revenue increase of \$257.0 million, \$219.7 million was attributable to the acquisitions of the AT&T cable systems. Data revenues increased by 261.3% to \$49.5 million for the nine months ended September 30, 2002, as compared to \$13.7 million for the nine months ended September 30, 2001. Of the data revenue increase of \$35.8 million, \$13.8 million was attributable to the acquisitions of the AT&T cable systems. Excluding the effects of such acquisitions, data revenues increased primarily due to customer growth in the Company's high-speed Internet access service.

Advertising revenues increased by 204.4% to \$27.7 million for the nine months ended September 30, 2002, as compared to \$9.1 million for the nine months ended September 30, 2001. Of the advertising revenue increase of \$18.6 million, \$15.8 million was attributable to the acquisitions of the AT&T cable systems. Excluding effects of such acquisitions, advertising revenues increased primarily due to a general improvement in local and national advertising markets.

Service costs. Service costs increased 100.3% to \$269.1 million for the nine months ended September 30, 2002, as compared to \$134.3 million for the nine months ended September 30, 2001. Of the service costs increase of \$134.8 million, \$102.2 million was attributable to the acquisitions of the AT&T cable systems. Excluding the effects of such acquisitions, service costs increased primarily due to higher programming expenses, including rate increases by programming suppliers for existing services and the cost of new channel additions, greater technical employee support and other operating costs directly related to customer growth in the Company's high-speed Internet access services, and non-recurring incremental costs of \$4.3 million related to the Company's high-speed Internet transition completed in February 2002. These incremental costs specifically related to the continuation of the Excite@Home Internet service and the transition of the Company's data customers to Mediacom Online, its proprietary high-speed Internet services during the first quarter of 2002. As a percentage of revenues, service costs were 39.3% for the nine months ended September 30, 2002, as compared with 36.0% for the nine months ended September 30, 2001.

Selling, general and administrative expenses. Selling, general and administrative expenses increased 96.2% to \$128.3 million for the nine months ended September 30, 2002, as compared to \$65.4 million for the nine months ended September 30, 2001. Of the selling, general and administrative expenses increase of \$62.9 million, \$57.4 million was attributable to the acquisitions of the AT&T cable systems. Excluding the effects of such acquisitions, selling, general and administrative expenses increased primarily as a result of higher marketing expenses related to the Company's digital and high-speed Internet services. As a percentage of revenues, selling, general and administrative expenses were 18.8% for the nine months ended September 30, 2002 as compared with 17.5% for the nine months ended September 30, 2001.

Corporate expenses. Corporate expenses increased 58.1% to \$9.4 million for the nine months ended September 30, 2002, as compared to \$6.0 million for the nine months ended September 30, 2001. This was principally due to an increase in corporate employees and their related costs. As a percentage of revenues, corporate expenses were 1.4% for the nine months ended September 30, 2002 as compared with 1.6% for the nine months ended September 30, 2001.

Depreciation and amortization. Depreciation and amortization increased 17.8% to \$228.1 million for the nine months ended September 30, 2002, as compared to \$193.6 million for the nine months ended September 30, 2001. This was due to the depreciation and amortization expense associated with the Company's purchase of the AT&T cable systems and ongoing investments in its cable systems. This increase was partially offset by the adoption of SFAS 142, effective January 1, 2002, which reduced amortization expense by \$108.5 million during the nine months ended September 30, 2002.

Non-cash stock charges relating to corporate expenses. Non-cash stock charges relating to corporate expenses decreased 22.9% to \$1.9 million for the nine months ended September 30, 2001. This charge represented vesting in equity interests granted to certain members of MCC's management team in 1999.

Interest expense, *net*. Interest expense, net, increased 53.2% to \$140.3 million for the nine months ended September 30, 2002 as compared to \$91.6 million for the nine months ended September 30, 2001. This was due primarily to additional indebtedness resulting from the acquisitions of the AT&T cable systems, partially offset by lower interest rates on the Company's variable rate debt.

Loss on derivative instruments, net. Loss on derivative instruments, net, was \$10.9 million for the nine months ended September 30, 2002, as compared to \$9.0 million for the nine months ended September 30, 2001 primarily due to an increase in the notional amount of interest rate swaps under which the Company pays fixed interest rates, and a decline in market interest rates.

Other expenses (income). Other expenses were \$8.6 million for the nine months ended September 30, 2002, as compared to \$28.8 million of other income for the nine months ended September 30, 2001. Other expenses represented fees on unused credit commitments under the Company's bank credit facilities, including the new credit arrangement for the acquisitions of the AT&T cable systems, and amortization of deferred financing costs. Other income in 2001 reflected the recognition of the remaining \$30.0 million of deferred revenue resulting from the termination of the Company's contract with SoftNet.

Net loss. Due to the factors described above, the Company generated a net loss of \$112.6 million for the nine months ended September 30, 2002 as compared to a net loss of \$102.6 million for the nine months ended September 30, 2001.

Operating cash flow. Operating cash flow increased 66.0% to \$277.2 million for the nine months ended September 30, 2002, as compared to \$167.0 million for the nine months ended September 30, 2001. Of the operating cash flow increase of \$110.2 million, \$71.0 million was attributable to the acquisitions of the AT&T cable systems. Excluding the effects of such acquisitions, operating cash flow increased primarily due to basic rate increases in the Company's video services and customer growth in the Company's digital cable and high-speed Internet access services, partially offset by increases in programming and selling, general and administrative expenses and the non-recurring incremental costs related to the Company's high-speed Internet transition. As a percentage of revenues, operating cash flow was 40.5% for the nine months ended September 30, 2002 as compared with 44.8% for the nine months ended September 30, 2001. The decrease was primarily due to the acquisitions of the AT&T cable systems, which had lower operating cash flow margins than the Company's other cable systems, and the non-recurring

cable systems, and the non-recurring incremental costs related to the Company's high-speed Internet transition. The lower operating cash flow margins for the AT&T cable systems were primarily due to their higher programming costs as a percentage of their revenues.

On February 4, 2002, the Company filed a registration statement with the SEC under which the Company may sell any combination of common and preferred stock, debt securities, warrants and subscription rights, for a maximum aggregate amount of \$1.5 billion. The SEC declared this registration statement effective on February 13, 2002. The Company has not issued any securities under this registration statement.

The operating subsidiaries of Mediacom Broadband LLC have a \$1.4 billion bank credit facility expiring in September 2010, of which \$853.0 million was outstanding as of September 30, 2002. The operating subsidiaries of Mediacom LLC have two bank credit facilities aggregating \$1.1 billion, of which \$705.5 million was outstanding as of September 30, 2002. Mediacom LLC's bank credit facilities expire in September 2008 and December 2008, however, their final maturities are subject to earlier repayment on dates ranging from June 2007 to December 2007 if the Company does not refinance its \$200.0 million 8½% senior notes due April 2008 prior to March 31, 2007.

The Company has entered into interest rate exchange agreements, which expire from 2003 through 2007, to hedge \$690.0 million of floating rate debt, including \$200.0 million of interest rate exchange agreements completed subsequent to September 30, 2002. Under the terms of all of the Company's interest rate exchange agreements, the Company is exposed to credit loss in the event of nonperformance by the other parties to the interest rate exchange agreements. However, the Company does not anticipate their nonperformance.

As of September 30, 2002, the Company's total debt was approximately \$2.96 billion. On such date, the Company had about \$922.9 million of unused credit commitments under all of its credit facilities, of which about \$763.2 million could be borrowed and used for general corporate purposes under the most restrictive covenants in the Company's debt arrangements. As of the date of this report, about 70% of the Company's outstanding indebtedness is at fixed interest rates or subject to interest rate protection and the Company's weighted average cost of indebtedness, including the Company's interest rate exchange agreements, is approximately 6.7%. As of September 30, 2002, the Company was in compliance with all debt covenants.

Although the Company has not generated earnings sufficient to cover fixed charges, the Company has generated cash and obtained financing sufficient to meet its short-term requirements, including its debt service, working capital, capital expenditure and acquisition requirements. The Company expects that it will continue to be able to generate funds and obtain financing sufficient to meet its long-term business plan, service the Company's debt obligations and complete any future acquisitions. However, there can be no assurance that the Company will be able to obtain sufficient financing, or, if it were able to do so, that the terms would be favorable to the Company.

Cumulative Effect of Accounting Change

Effective January 1, 2001, the Company adopted Statement of Financial Accounting Standards No. 133 ("SFAS 133"), "Accounting for Derivative Instruments and Hedging Activities". As a result, the Company recorded an after tax charge of approximately \$1.6 million, as a change in accounting principle, in the first quarter of 2001.

Recent Accounting Pronouncements

Effective January 1, 2002, the Company adopted, Statement of Financial Accounting Standards No. 141 ("SFAS 141") "Business Combinations" and No. 142 ("SFAS 142") "Goodwill and Other Intangible Assets". SFAS 141 requires all business combinations initiated after June 30, 2001 to be accounted for using the purchase method. Adoption of SFAS 141 had no effect on the Company's results of operations or financial position as the Company accounts for all acquisitions under the purchase method. The provisions of SFAS 142 prohibit the amortization of goodwill and indefinite-lived intangible assets and require such assets to be tested annually for impairment, or more frequently if impairment indicators arise. The Company has determined that its cable franchise costs are indefinite-lived assets. The impact of adopting SFAS 142 was to reduce amortization expense by \$36.2 million and \$108.5 million for the three and nine months ended September 30, 2002, respectively.

In July 2001, the FASB issued Statement of Financial Accounting Standards No. 143 ("SFAS 143"), "Accounting for Asset Retirement Obligations," which addresses financial accounting and reporting for obligations associated with the retirement of tangible long-lived assets and the associated asset retirement costs. SFAS 143 will become effective for fiscal years beginning after June 15, 2002. The Company does not expect that adoption of SFAS 143 will have a material impact on its results of operations or financial position.

In August 2001, the FASB issued Statements of Financial Accounting Standards No. 144 ("SFAS 144") "Accounting for the Impairment or Disposal of Long-Lived Assets," which addresses financial accounting and reporting for the impairment or disposal of long-lived assets and provides guidance on classification and accounting for such assets when held for sale or abandonment. The Company adopted this standard effective January 1, 2002 and there was no impact on its results of operations or financial position.

Inflation and Changing Prices

The Company's systems' costs and expenses are subject to inflation and price fluctuations. Such changes in costs and expenses can generally be passed through to subscribers. Programming costs have historically increased at rates in excess of inflation and are expected to continue to do so. The Company believes that under the Federal Communications Commission's existing cable rate regulations the Company may increase rates for cable television services to more than cover any increases in programming and copyright costs. However, competitive conditions and other factors in the marketplace may limit the Company's ability to increase its rates.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

In the normal course of business, the Company uses interest rate exchange agreements to fix the interest rate on its floating rate debt. As of September 30, 2002, the Company had interest rate exchange agreements with various banks pursuant to which the interest rate on \$520.0 million is fixed at a weighted average rate of approximately 4.7%, plus the average applicable margin over the eurodollar rate option under the Company's bank credit agreements. Under the terms of the interest rate exchange agreements, which expire from 2002 through 2007, the Company is exposed to credit loss in the event of nonperformance by the other parties. However, the Company does not anticipate their nonperformance. At September 30, 2002, the Company would have paid approximately \$21.0 million if it terminated these agreements, inclusive of accrued interest. The table below provides information for the Company's long term debt. See Note 5 to the Company's consolidated financial statements.

AMENDMENT NO. 1

AMENDMENT NO. 1 dated as of September 12, 2002, between MCC IOWA LLC, a limited liability company duly organized and validly existing under the laws of the State of Delaware ("MCC Iowa"); MCC ILLINOIS LLC, a limited liability company duly organized and validly existing under the laws of the State of Delaware ("MCC Illinois"); MCC GEORGIA LLC, a limited liability company duly organized and validly existing under the laws of the State of Delaware ("MCC Georgia"); and MCC MISSOURI LLC, a limited liability company duly organized and validly existing under the laws of the State of Delaware ("MCC Missouri", and, together with MCC Iowa, MCC Illinois and MCC Georgia, the "Borrowers"), and JPMorgan Chase Bank (formerly known as The Chase Manhattan Bank), as Administrative Agent.

The Borrowers, certain Lenders and the Administrative Agent are parties to a Credit Agreement dated as of July 18, 2001 (the "<u>Credit Agreement</u>"), providing, subject to the terms and conditions thereof, for extensions of credit to be made by said Lenders to the Borrowers in an aggregate principal or face amount of \$1,400,000,000 (which may, in the circumstances provided therein, be increased to \$1,900,000,000).

The Borrowers have requested that the Administrative Agent consent to certain waivers and amendments to the Credit Agreement. The Administrative Agent, pursuant to authority granted by, and having obtained all necessary consents of, the Majority Lenders (as defined in the Credit Agreement), has agreed to such amendments and waivers and, accordingly, the parties hereto hereby agree as follows:

- Section 1. Definitions. Except as otherwise defined in this Amendment No. 1, terms defined in the Credit Agreement are used herein as defined therein.
- Section 2. <u>Amendment</u>. Subject to the execution and delivery by the Borrowers and the Administrative Agent (having received the consent of the Majority Lenders) on or prior to September 12, 2002, but effective as of the date hereof, the Credit Agreement shall be amended as follows:
- 2.01. References in the Credit Agreement (including references to the Credit Agreement as amended hereby) to "this Agreement" (and indirect references such as "hereunder", "hereby", "herein" and "hereof") shall be deemed to be references to the Credit Agreement as amended hereby.
 - 2.02. Financial Statements. Section 8.01(b) of the Credit Agreement shall be amended to read in entirety as follows:
 - "(b) as soon as available and in any event within 90 days after the end of each fiscal year of the Borrowers, combined statements of income, retained earnings and cash flows of the Borrowers and their Subsidiaries for such fiscal year and the related combined balance sheet of the Borrowers and their Subsidiaries as at the end of such fiscal year, setting forth in each case in comparative form the corresponding combined figures for the preceding fiscal year and accompanied by an opinion thereon of

independent certified public accountants of recognized national standing, which opinion shall state that said combined financial statements fairly present in all material respects the combined financial condition and results of operations of the Borrowers and their Subsidiaries as at the end of, and for, such fiscal year in accordance with generally accepted accounting principles;"

Section 3. <u>Waiver</u>. The Administrative Agent hereby waives the requirements of Section 8.01(b) of the Credit Agreement insofar as requiring delivery of a statement of independent recognized public accountants of national standing to the effect that, in making the examination necessary for their opinion, nothing came to their attention that caused them to believe that the Borrowers were not in compliance with the covenants specified in said Section 8.01(b), insofar as such covenant compliance relates to accounting matters.

Section 4. Miscellaneous. Except as herein provided, the Credit Agreement shall remain unchanged and in full force and effect. This Amendment No. 1 may be executed in any number of counterparts, all of which taken together shall constitute one and the same amendatory instrument and any of the parties hereto may execute this Amendment No. 1 by signing any such counterpart. This Amendment No. 1 shall be governed by, and construed in accordance with, the law of the State of New York.

IN WITNESS WHEREOF, the parties hereto have caused this Amendment No. 1 to be duly executed and delivered as of the day and year first above written.
